

ACTIVITIES

PASSION FOR CARS

Ascari is located near Ronda (Malaga), in an area of incomparable natural beauty. The facility has been designed to indulge the needs of motorsport lovers, as well as to cater to private corporate events and promotional

presentations. To this end, the highest quality of facilities and service is underpinned by truly personalized attention. Ascari was conceived with real passion, and crafted in an exclusive but informal style, with respect for both the landscape and the environment a major consideration. The concept behind Ascari is that of a dream come true, for an unforgettable experience in a unique location.

Ascari is the longest track in Spain, and is “one of the most spectacular in the world”. The full circuit is 5,425 metres long, with a consistent width of 12,2 metres. It can be sub-divided into three different sections or combinations, enabling separate events or aspects of driver training to be run simultaneously.

The 26 corners of this anti-clockwise circuit are divided into 13 right-hand and 13 left-hand turns, offering a balanced course for both the driver and the vehicle. Variety ensures a good mix of tight bends and sweeping curves. To further challenge both car and driver, the track includes bends with up to 18% banking, 12% ascents and descents, and demanding chicanes.

Security:

Access to Ascari is restricted to authorised personnel only. Our gates possess an innovative security system that combines the most complex encryption technology with the latest generation of biometrics, preventing unauthorised access to the circuit, car parks and other areas.

Our facilities are under surveillance by our professional security team 24/7. Only Ascari Club Members and their clients or guests are allowed on the premises.

The aim is for our Members and customers to feel totally at home at Acari. With these security measures in place, we achieve a uniquely relaxed atmosphere that every visitor notices and values.

Safety on the track is a priority, and is overseen by our professional team, which includes the Course Director, Head of Marshelling, Track Marshals, Medical Team, Mechanic's and other staff.

Environmental and Quality Standards:

Ascari is located in a privileged natural environment, cared for and respected by us during every stage of our day-to-day activities.

As part of this ethos, we observe strict compliance to environmental sustainability legislation, recycle all waste materials, and practise maximum on-site energy efficiency.

Careful attention to the flora and fauna, both in and around our premises, is a vital part of the process that maintains Acari's unrivalled character and appeal. Our Members and customers can thus delight in the extraordinary beauty of the surrounding Andalusian landscape - under the standard of ISO 14001.

Additionally, to obtain a guarantee of service to all our customers, we operate according to the standards of the quality management system ISO 9001.
